Forgotten Epiphyllum Hybrids

As part of our mission to preserve epiphyllum hybrids, the collection at the Safari Park is interested in finding lost or forgotten epiphyllum. This is an ongoing project of the ESA Research Committee. This list is published in the interest of research. These epiphyllum hybrids have not been seen (displayed) in years. If you are growing one of these hybrids, please let Jerry Moreau, SDES, (SafariPark@sdepis.org) know.

This is not a complete list and will be updated as hybrids are found and others lost. Thank you for taking the time reviewing this list.
